599 Network Connect Timeout Error	

Django REST Framework

Folder Structure

django-admin create (project name)

backend/	← Project folder (project root)
— backend/	← Package folder (Django project package)
— __init__.py	← Tells Python to treat this folder as a package
— settings.py	← Main configuration file (apps, database, middleware, etc.)
— urls.py	← Main URL entry point for the project
— asgi.py	← ASGI entry point (used for deployment and async servers)
— wsgi.py	← WSGI entry point (used for deployment)
— manage.py	← Command-line utility for managing the Django project

python manage.py startapp (app name)

base/	← App folder (Django app / feature module)
— __init__.py	← Marks this folder as a Python package
— admin.py	← Register models so they appear in Django Admin
— apps.py	← App configuration (usually no changes needed)
— models.py	← Database models (tables and fields)
— views.py	← Handles requests and returns responses
— tests.py	← Test cases for this app
— migrations/	← Database migration files
— __init__.py
